.The Agatheridan Waltz. For the Patriot.

Mr. Entron :- Have you heard the Agatheridan Waliz. If not let me advise you to procure a copy of it as soon as possible. It is beautiful, -enchanting, It is named for one of the literary societies of the University, and is appropriately declicated to the Hero-Champion of that Association, -to the young g atleman whose achievement on the 23rd of Fetruary, is surely not forgotten.

humbug, for the notes instead of being spread out over a huge underground of paper, are thick clustered as "leaves in Yallambroso," and the melody is exquisite. In some parts the full-toned cords approach the true grandeur of Harmony. It is rather difficult, but that is not a fault, Get a copy, Mr. Editor, get your wife, or your

daughter, or your "luly-love," to play it, and my word, you will never regret it. Yours respectfully, and melodiously,

[From Buffalo Commercial Advertiser, 18th.] APPALLING CASUALTT!-UPWARDS OF 80 LIVES Lost .- A frightful accident occured on the Great Western Railway, at the bridge over the Des Jardines Canal, four miles northwest of Hamilton, Canada Wesi, yesterday afternoon, between five and six o'clock. The bridge across the canal swings, It was a local train from Toronto to Hamilton. There were no through passengers upon it, most of the victims being from those two places. It is supposed that the train which passed East a short time before sunk the bridge so much that the locomotive of this train was obstructed by the abutment to such a degree that the passenger cars were raised up and thrown into the canal. The water in the canal is eighteen feet deep, and all who were not immediately extricated must have been drowned, of course.

Further particulars by an Eye Witness .- Our informant was at the scene of the disister, at 7 o'clock this morning. The place where the accident took place is a short distance beyond Hamilton, where two bridges cross the Welland Canal at an elevation of about 60 feet above the water. When he arrived, parties were still busy in extricating the dead bodies from the wreck. There lay the shattered remains of the baggage car and two passenger cars, the first on its side and one of the passenger cars turned completely bottom side upward and about two-thirds submerged; the other

lay near, also a complete wreck In an out-house adjoining the station-house at Hamilton were about fifty or sixty corpses laid out on the floor-men, women, and children. Mr. Lake Ontario, and Mr. Redfi 1 , late superintendent of the Erie and Ontario railroad, were among the victims. Only one fady passenger was saved, and she with considerably many cuts and bruises. A German lad who was in the hind car, seeing the conductor hastily retreating to the back door, took alarm and followed, and he with the conductor and two others were the only ones who escaped with trifling injuries -tumbling out of the car just us it made the final pitch into the deep chasm.

But fifteen persons were taken alive from the wreck, and of these five have since died from their injuries. The number of persons on the train is variou-ly estimated at from seventy-five to one hundred.
The cause of the accident was undoubtedly owing

to the engine having by some means got off the track just as the train was approaching the bridge under diminished speed the wheels of the engine of course cutting off the ties of the bridge as it advanced, till the whole weight of the engine and tender failing heavily, parted the string pieces, and pitched headlong into the caral below, and is now buried with the engineer and fireman, at least swenty feet below the surface. HAMILTON, C. W., Murch 13.

Parties have been busy during the day extricating bodies from the wreck up to this evening Fifty-seven Sodies have been recovered, and many have been carried away by their friends.

> POVERTY AND RICHES .- The other day a man turved to death in New York, surrounded by opulent fellow- it zens. He could obtain no work, and be knew of no other method by which to acquire money. The very people who permitted him to starve, would, no doubt, have abused him had he dared to invest his last few dollars in the purchase of a lottery ticket; had he purchased one, it might have conforred a fortune upon him. There are many wealthy men in this city, and in the principal Southern cities, who have no besitation in sayng that they were started in business by prizes drawn in lotteries. We have just seen a scheme, which, for gigantic promise, was never equaled in this country. It is gotten up on the Havana plan of single numbers, and embraces 570 prizes, the capital one being \$100,000, one of \$50,000, two of \$20,000, two of 10,000 and 100 prizes of \$1,000 rach. lottery is the cidest authorized lottery in the United States, and is managed by R. France & Co., of Baltimore, Md. The State controls it. however, and is responsible for its promises. The drawing of the scheme we have mentioned, will take place on the 30th of April, under the superintendence of the State Lottery Commissioner. Could there be a better guarantee of its fairness? THE REIGS OF ART .- In this wonderful age, Art lays her passer touches or almost everything. The cellings over us and the carpets we tread on, are hallowed by Art. Art winds the railway through the mountains and the mud; makes her machines of wood and iron, to act as if with knowledge and annihilates space with lightning tamed down to the tuteledge of a boy. Nothing is too lofty for her touch and nothing too humble. A new proof of this old conviction has just fallen under our notice, in the shape of a CATHARric Pill, from the Laboratory of that world renowned Chemist, Dr. C. J. AYRR.

dec10-tilimay81

If we understand the subject, he has carried that article to the farthest perfection of which it is capable. Instead of employing Drugs in its composition, as we have always thought the necessary and only way, he has with consummate skill extracted the virtues of the medicine to be employed and combined them alone in their purity together. The composition is then mixed and rolled by machinery and steam power into a speroid pill which is wrapped in an envelope of gelatine, for protection from the effects of weather or sime, and then thickly coated with sugar, to serve as its passport over the palate. Notwithstanding all the labored perfection they are offered to the Public at less than one cent each. However humble the department, we think this may be safe'y characterised as the consummation of Art in Itsline .- Morning News Bad. Williams' Pulmonic Balsam of Wild Cherry and

E. & J. HOLMES MPROVED SEAMLESS WHALEBONES SKIRTS.

WE take pleasure in again introducing our Improved Seamless Skirt, as being the most acceptable and reliable article in market; we are aware that many new styles called improvements are before the public, such as India Bubber Gutta Percha, flattan, 4c., all of which we have if colled for-but cannot recommend them, as we have ex-perimented with and tested them all-(most of them two perimented with and tetted them all—(most of them two years since,) submitting them to the judgment of compe-tent ladies to decide upon their merits, and have found them, from actual use, to be in all important respects, de-cidedly inferior to our properly prepared Whalebone, which has been in use the past two years, and for which has been expressed from all parts of the country entire satisfaction; and we have the more positive evidence from satisfaction; and we have the more positive evidence from our own large retail trade, amounting to many dosens per day. Therefore we confidently recommend our Skirts to be the least objectionable of anything in use; possessing miny alvantages found in no other Stirt, the most important of which is series of clustic Coros at the bottom, made from the only material that can be used, that will recover its piace when pressed out of shape, will not roll nor curl, in not affected by water of the can be washed. cover its piece when pressed out of shape, will not roll nor curl, is not affected by heat or cold and can be washed without injury. These Cords at the bottom, instead of bones, which are exceedingly awkward and inconvenient, with our own prepared bones above and a fabric manufactured by ourselves expressly for our goods, in our estimation and the estimation of thousands who have used them, produce a Skirt, and the only Skirt equally adapted to the parlor, the street, and the crowd, giving a proper, graceful and elegant form to a lady's dress; light, pliable, easily adjusted and in every respect a complete article. The public are cautioned against all imitations or other goods called Seamless Skirts. Every genuine article is stamped, E. & J. Holmes' Improved Seamless Whalebone Skirt, and are for sale at 92 Market street, Philadelpnia, and in the principal Jobbing Housesin New York and Boston.
